DECISION

Mr. Michael Pauletto
I & P Investments
10517 N.E. 50th Avenue
Vancouver, Washington 98686

Right-of-Way Grant UTU-80419 Issued

Enclosed is your copy of Right-of-Way Grant (ROW) (serial number UTU-80419) which has been approved by the Bureau of Land Management (BLM). The issuance of this permit constitutes a final decision by the Bureau of Land Management in this matter.

This is your official permit. The original should be kept in your records and a copy provided to your contractor or field representative for reference when constructing or operating your facility.

We are aware that you have received conditional approval for your proposed Green Peak operation from the State of Utah, Division of Oil, Gas, and Mining in a letter dated June 8, 2005. While we are willing to allow the right-of-way to be issued at this time, we concur with the requirements of the State of Utah regarding the need for you to provide a single security for the full amount of \$74,700 and evidence of a license to do business in the State of Utah by August 8, 2005 to be provided to both agencies. If these conditions are not met by that date, your Notice to Proceed from BLM may be revoked.

In addition, Special Stipulation #2 of your right-of-way directs you to contact our office before the start of construction to arrange for a pre-construction meeting between the BLM representative and your company representatives and contractors who will be working on the project. Please contact Mike Nelson of my staff at (801) 977-4355 to arrange the meeting, which we would anticipate having at the Green Peak quarry site.

Should you disagree with any of the terms or conditions in this permit, within 30 days of receipt of this decision, you have the right of appeal to the Board of Land Appeals, Office of the Secretary, in accordance with the regulations at 43 CFR 4.400. If an appeal is taken you must

follow the procedures outlined in the enclosed Form 1842-1, Information on Taking Appeals to the Board of Land Appeals. The appellant has the burden of proof of showing that the decision appealed from is in error.

Please note, however, that under the regulations in 43 CFR Group 2800, this decision is effective even if an appeal is filed.

If you have any questions, please contact Mike Nelson at (801) 977-4355.

Sincerely,

Acting

David H. Murphy
Assistant Field Manager
Non-renewable Resources
